WIRELESS DECT MOBILITY

Have an important customer on the phone and need to walk away from your desk? Panasonic Wireless DECT connectivity is here to help. Panasonic PBX systems let you simply continue your current conversation over a lightweight, business smart wireless DECT telephone while you are away from your desk or moving around the office. Because the system is digital, the voice comes through loud and clear.

▶ SYSTEM OVERVIEW

The Multi-Cell DECT System is an integrated wireless mobility solution designed specifically for use with a Panasonic PBX*. This system provides automatic hand-over between installed cell stations - enhancing coverage and giving you true communication mobility even within large premises.

The Panasonic KX-TCA364 ruggedised handset is rated strict dust and splash resistant IP64 based on Ingress Protection standards. This guarantees that the product can be used in harsh working environments. In addition TCA364 comes with a vast array of business telephony features.

The KX-TCA275 DECT handset combines small size, light weight and durability, with a host of powerful business telephony features. While the KX-TCA175 is a perfect choice for users who want good performance in a cost effective standard handset.

* The KX-TCA364, KX-TCA275, KX-TCA175 and KX-WT115 must be connected to a compatible Panasonic Phone System: KX-TDA15, KX-TDA30, KX-TDA100, KX-TDA200, KX-TDA600, KX-TDE100, KX-TDE200, KX-TDE600, KX-NCP500, KX-NCP1000 KX-NCP500X and KX-NCP500V.

Businesses can increase employee availability, ease customer telephone access, and enhance customer service by providing un-hindered access to wireless telephony. High-density and standard cell stations and repeaters can be used to easily enhance DECT wireless coverage - allowing employees to roam freely and still be contactable.

Business telephony becomes a breeze - with Panasonic wireless mobility solution.

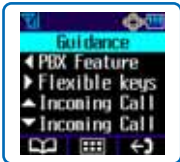

EVERYTHING MATTERS

PANASONIC DECT WIRELESS MOBILITY SOLUTION

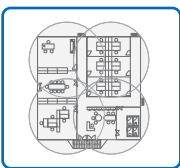

▶ ADVANTAGES OF PANASONIC DECT HANDSETS

FULL ACCESS TO PBX ENTERPRISE FEATURES

Fully Integrated with enterprise telephony features like Multi-line, Dial by name, etc. Flexible CO Keys let you register PBX features and handset functions for quick, convenient access.

SEAMLESS CONNECTION – AUTOMATIC HAND-OVER

Maintain high connection quality as you walk around, moving from one cell station area to the next while continuing with important business conversation.

200-STATION PHONEBOOK

The built-in telephone directory lets you store up to 200 names and numbers.

POWER SAVE MODE*

To reduce power consumption the handset turns off the back light depending on the setting for power saving, hence helping to extend the battery power time.

* KX-TCA175 and KX-TCA275 only

ILLUMINATED KEYPAD

For easier operation in low lighting, the enhanced keypad lights up when a call comes in or when you touch any key.

COLOUR LCD SCREEN*

The new colour LCD screen allows clearer visibility and easier operation from the phones screen. It also allows the phone to be used even in dark conditions.

ANSWER WITH HEADSET BUTTON SWITCH

Make answering calls easier with a headset button for unrestricted freedom of hands-free communication. Leaving you free to answer incoming calls keeping your hands free to continue with any task at hand.

TALK ON CHARGER*

Users can now talk on a call whilst the KX-TCA175 is charging. When this feature is on, the call is automatically switched to speakerphone when it is put in the charger.

▶ EXTENDING WIRELESS COMMUNICATION

Panasonic PBX systems allow wireless communication over an extended range by using multiple and High Density cell stations that boost the flexibility and mobility of your wireless handsets. The system provides automatic hand-over between installed wireless cells - enhancing coverage and giving you true communication mobility even within large premises.

▶ WIRELESS SOLUTIONS FOR BRANCH OFFICES LONG DISTANCE PREMISES

The KX-NCP0158 IP Based Cell Station provides wireless solutions for branch offices and long distance installation on larger premises by helping businesses save costs with converged voice and data IP networks, whilst utilising existing DECT PS (Portable Station).

▶ ENJOY SUPERB MOBILITY WHATEVER YOUR BUSINESS DEMANDS

Whether you work in an office, a factory, a warehouse, a supermarket, or other large facility, the Panasonic Multi-Cell Business DECT System keeps you in constant touch with colleagues and customers even when you are untethered and moving within the work environment.

Enjoy the freedom to communicate - wirelessly with crystal clear voice quality.
